Hi Peter,

Do you have a copy of the SAP for this project you could forward to me? Jolene needs it to make up a ProjectID for the Site Visit forms.

Thanks,  
Steve

**Subject:** EPA Task Order 19 Tobacco/Yaak/Hyalite monitoring

Hi Steve,

I've attached a copy of a bottle order for the Tobacco/Yaak/Hyalite (low flow event 1) nutrient monitoring we'll be conducting the second week of July under EPA TO 19. We'll need SVFs, nutrient and TSS labels, photo forms, and whatever other forms you employ for nutrient monitoring. I'd need these no later than July 6; I hope putting these together won't be a major hassle for you all, as this happens to be the short 4th of July week.

The second low flow event scheduled for August will include Chlorophyll a, macroinvertebrate and periphyton sampling.

If you have any questions, please give me a call.

Thanks,

Erich
